JIEYUAN CONTAINER

Full IBC & Accessories Solutions

Premium Materials · Global Supply · One-Stop IBC Solution

IBC PRODUCTS

1000L Standard

1000L Plastic Pallet

500L Horizontal

1000L UV-Blocking

1000L Anti-static

1000L Dual Opening

500L Vertical

WHAT SETS JIEYUAN APART ?

GLOBAL LEADER IN INNOVATING IBC SOLUTIONS

Raw Material Quality

- **Top-tier steel:** Custom-made by Ma Steel for exceptional strength, precision, and durability.
- **Anti-oxidation:** Advanced coating prevents white staining and extends product lifespan.
- **Reinforced zinc protection:** Double the industry norm, ensuring superior corrosion resistance.

E2E Production Ownership

- **End-to-end ownership:** Full control of metal and plastic accessory production, including valves and lids.
- **In-house assembly lines:** Streamlined processes ensure consistent quality and reliability.
- **Automated machinery:** Reduces labor costs and enhances production precision.

Professional Customer Support

- **Experienced team:** Core sales and support members each bring 10+ years in the industry.
- **Export expertise:** Proven track record in handling global shipments and regulations.
- **End-to-end support:** Dedicated service from inquiry to delivery and beyond.

Cost competitive solutions while adhering to the best standards

JieYuan Container Global Recycling Service

Jiangsu Jieyuan Container Co., Ltd. (formerly known as Jinshan Pack), founded in 1994, is one of China's top manufacturers of IBCs, accessories, and production equipment. With seven production bases and exports to over 50 countries, we're globally recognized for quality, reliability, and innovation in industrial packaging.

Headquartered in Zhenjiang City, we have presence in 5 locations across China, allowing us to scale production efficiently and meet diverse client demands across chemical, food, pharmaceutical, and logistics sectors. In 2021, we upgraded to a state-of-the-art facility with an annual output exceeding 2 million IBC units. We are also proud co-drafters of the GB/T 19161-2016 national IBC standard, and the first in China to receive the QS Food Production License for IBCs.

To support end-to-end industrial packaging innovation, we have expanded into the equipment sector, producing specialized machinery for IBC and accessory manufacturing. Our comprehensive offering ensures customers benefit from turnkey solutions across the value chain.
